Supports, e.g.: mental performance, nervous system, reduction of fatigue, skin and mucous membranes.

Description

Niacin Flush Free 500 mg is a high-dose form of niacin (vitamin B3) that does not cause flushes. Flushes are red or flushed skin due to vasodilation by a certain form of vitamin B3. Thanks to the high dosage per capsule and the easily absorbable form, this form of vitamin B3 works very effectively.

Vitamin B3 contributes to the normal functioning of nerves and the nervous system. contributes to normal psychological function, is good for state of mind, learning performance, concentration, memory and mental energy, and is beneficial for a good mental balance. Vitamin B3 activates the natural energy in the body, promotes energy metabolism, helps release energy from food (fat, carbohydrates and proteins) and plays a role in the activity of certain enzymes involved in energy metabolism. It helps reduce tiredness and fatigue and can help reduce a lack of energy. Vitamin B3 contributes to extra energy in case of lethargy and fatigue. And vitamin B3 contributes to the maintenance of normal skin and mucous membranes (normal structure and function), helps keep the skin healthy (nourishes the skin from the inside) and is good for the mucous membranes.
